Each sketch style is 4 frames and each screen is as follows:
Welcome Screen -> Budget -> Suggestions -> Goals

Revenue	Expenses
Daniel Pay - $1000	Jimothy’s Inhaler - $500
Mary’s “Business” - $230	Adam’s Video Games - $420
	Plastic Surgery - $417
Total: $1230	Total: $1337

Suggestions

1. Daniel could work 12 more hours so that you aren't in the red.
2. Jimothy could make his lungs start working again so that you can reduce the inhaler expenses.
3. Mary could hold off on her plastic surgery until your finances are more stable.
4. Adam could look into free-to-play games, or piracy.

Goals

- Monthly income needs to be >$1800. ✔
- Monthly expenses should be <$1000. ✔

Congration, you done them! We hope you're proud of yourself for once~

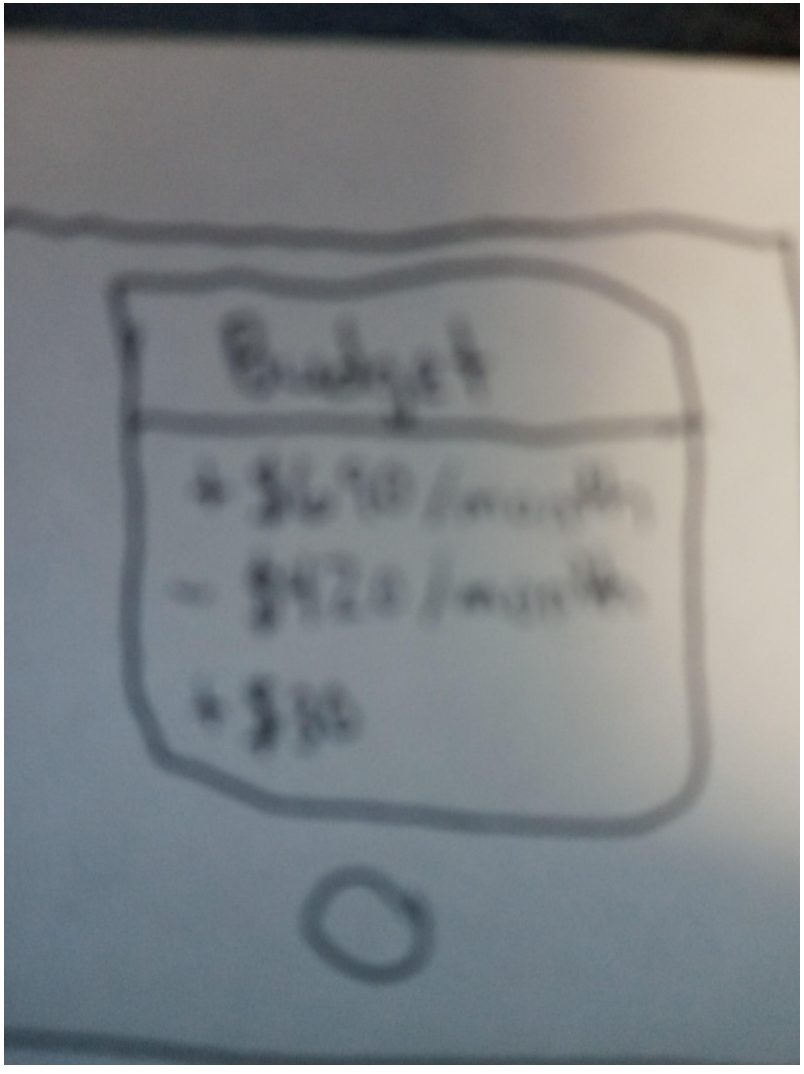
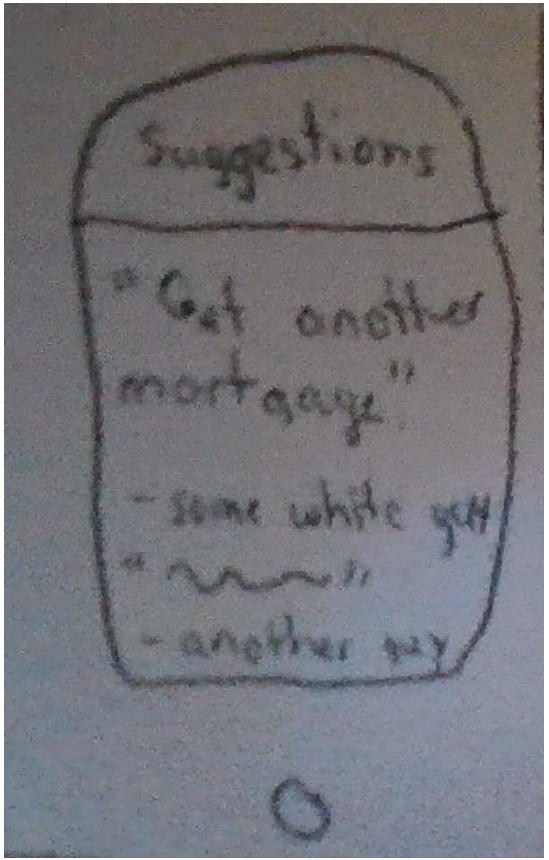
Beginning of Style 3



Budget



This is different from #2's Suggestion screen because it shows expert ideas as opposed to just having you consult an expert.
